THE NEW REVISED EDITION OF

ADAMS' CHART OF HISTORY

From Creation to the Present at a Glance.
It is a Pictorial History of all Ages by Decades.

DESCRIPTION

This Chromo-Lithograph on Rollers, turning like a panorama, is about twenty-five feet long by two and one quarter feet wide, and occupies one foot or more space on door or wall. Also in Folio Form, 800 years each Exhibit, both forms mounted on muslin.

The length of the Chart is divided by perpendicular lines into the fifty-nine centuries and their decades; across these century spaces pass from left to right colored lines or streams that represent the different historic nations (and lives of the patriarchs), these streams change their color to indicate every change of rulers; and divide, sub-divide, unite, or disappear according to the record of the nation represented; thus every nation, with its consecutive rulers and all the leading facts of history, are placed upon a fixed scale and presented to the eye in their proper relations as to time; the century and decade lines across this Chart mark contemporaneous nations, rulers and events; colored blocks are placed on the decades to show lives of great men, date of birth and death given; the blocks in vertical streams show how long each ruler ruled. Cross the Chart for Cotemporary, Biblical and Secular History.
